WORLDWIDE'S AWARDS ●

AB EXPORT S.r.l. – Castel d'Azzano Verona

Thanks to his long experience in the furniture industry since the '70s, in 1985 Robert founded AB EXPORT to provide services to foreign clients interested in Italian products.

The Company could immediately count on the expertise of Mr. Bellaro, who transferred to his staff of seven people the concept of Buying Office.

In its 22 years' business, AB EXPORT has collaborated with importers, wholesalers and prestigious architects and designers for the production and supply of furniture for hotels and private villas.

Among the most important projects, for modern design we just cite the Samsung Villa designed by Jean Neville and, for classic design, the Cheongshim Museum designed by Architecture Studio Unideco Interiors.

Besides collaborations in Veneto, Lombardia and Friuli Venezia Giulia, the Company exports the Made in Italy especially in Far East, and opened in 2000 its Representative Liaison Office in Seoul - AB EXPORT KOREA.

In the Company's turnover, that in 2006 stood at 3.752,012 Euro, exports are a fundamental voice.

Among the most prestigious clients you can find LG Chem, LG Decovill and Samsung Heavy Industry.
